SHELL

Tunisia Upstream

[Sfax - Tunisia]
[2019]

PCD (Process Control Domain) IT Cyber Security Expert

Appointed by SHELL Tunisia Upstream for a mission of 8 months (until December 2019).

My mission is taking place on Hannibal platform (onshore) and Miskar Platform (offshore).

It consists in a pre-audit and preparation for a general audit that will be carried out by SHELL group.

Generally, my mission is:

- 1) Check conformity between procedures used by Shell Tunisia Upstream and Shell Group and prepare action plan to be aligned with Shell standard.
- 2) Perform general inventory of PCD equipment.
- 3) Perform a computer security audit on PCD equipment of both platforms and undertake recommendations according to the priority.
- 4) Establish a quarterly IT security plan and execute it at least once.
- 5) Undertake necessary hardware and software updates of PCD equipment.
- 6) Launch necessary training for PCD users to raise awareness of importance and criticality of PCD.
- 7) Carry out necessary backups quarterly for different systems of PCD and launch operation test of data recovery.
